

2017 INFINITI Q70L raises the level of luxury with an extended wheelbase, ample rear roominess and smooth ride

- INFINITI Q70L wheelbase is nearly six inches longer than the standard Q70, providing additional spaciousness and flexibility
- Offers “SUV rear legroom” in a performance luxury sedan
- Roomy rear passenger area includes personal lamps, power outlet, heated seats – plus power rear door cinchers
- Available with rear-wheel and all-wheel drive, plus a choice of advanced 3.7-liter V6 and 5.6-liter V8 engines

The 2017 INFINITI Q70L has much to offer over the standard Q70 performance luxury sedan – specifically a 5.9-inch longer wheelbase, 5.6 inches of additional rear seat legroom (41.8 inches total) and 5.9 inches of extra knee room (32.5 inches total). Along with its First Class-style space, the Q70L is designed to provide smooth, luxurious ride comfort for all seating positions.

And, as expected of INFINITI’s flagship sedan, the 2017 Q70L offers all the evocative design, invigorating performance, innovative technology and superior craftsmanship of the standard wheelbase Q70, including a choice of 3.7-liter V6 and 5.6-liter V8 engines and rear-wheel or all-wheel drive. Available advanced technologies include Predictive Forward Collision Warning, Around View® Monitor with Moving Object Detection, Backup Collision Intervention and Forward Emergency Braking.

Also offered are an advanced INFINITI Navigation System, Bose® Studio Surround® premium audio system, Blind Spot Warning, Blind Spot Intervention, Lane Departure Warning and Lane Departure Prevention systems, Enhanced Intelligent Key, Intelligent Cruise Control, Distance Control Assist and Front Pre-Crash Seat Belts.

For 2017, the Q70L is available with the Premium Select Edition package, which combines unique exterior and interior finishes with sporty style and modern luxury content. Previously offered only with the standard wheelbase Q70, the Q70L’s Premium Select Edition exterior features dark chrome trim, darkened

lower rear bumper finisher, rear spoiler, unique 20-inch wheel design with dark chrome finish and Sport Brakes.

Inside, the Premium Select Edition includes a choice of two exclusive semi-aniline leather colors, Stone and Graphite, along with contrasting seat piping, suede-like headliner, exclusive laser-etched aluminum trim, illuminated kick plates, unique floor mats with contrasting piping and aluminum badging.

The 2017 INFINITI Q70 is also available in five standard wheelbase models: Q70 3.7 RWD, Q70 3.7 AWD, Q70 5.6 RWD, Q70 5.6 AWD and Q70 Hybrid RWD. For full information, please see www.INFINITInews.com.

Sleek lines, seductive curves, LED lighting

Building on the foundation of the standard INFINITI Q70, The Q70L seamlessly ingrates the additional length behind the B-pillars – with the flowing, emotional lines and refined elegance of the vehicle taking on an even more upscale image. And, with the extended length of the Q70L's rear doors, rear seat ingress and egress is enhanced – especially for taller passengers. Automatic power rear door clinchers are also standard.

The Q70L's LED headlights, which evoke inner intelligence and human insight, make an immediate and indelible first impression. An Adaptive Front lighting System with auto-leveling headlights is available as part of the Technology Package. The distinctive headlights accentuate the double arch-grille, which takes on a three-dimensional look due to the elaborate detail of the high-quality waved mesh finish and chrome surround. The same solid feel is echoed in the front bumper with integrated LED fog lights, giving the Q70L a dignified presence on road.

From the front, a strong body line rises from the grille, flowing through the bodyside like a wave and blending into the shape of the rear LED combination lights, forming a compelling profile that highlights the Q70L's sporty stance. At the rear, the design of the taillights creates a horizontal flow in motion while the high-quality lighting signature evokes a fresh and classy image. The chrome rear

finisher adds a touch of class to the entire rear view. The Q70L has a low coefficient of drag of just 0.27.

Other standard exterior features include a power sliding tinted glass moonroof with one-touch open/close, tilt feature and sliding sunshade, power-folding heated outside mirrors with integrated LED turn signal with reverse tilt-down feature and rain-sensing variable intermittent front windshield wipers. Also standard are and courtesy lamps built into the outside door handles, rear window defroster with timer, dual exhaust with polished tips and automatic trunk cincher.

The 2017 INFINITI Q70L is available in seven exterior colors: Hagane Blue, Hermosa Blue, Chestnut Bronze, Malbec Black, Liquid Platinum, Graphite Shadow, Black Obsidian and Majestic White (with premium pearl finish).

Premium interior, meticulous craftsmanship

The INFINITI Q70L's well-appointed and inviting interior combines style with spaciousness. With 110.6 cubic feet of interior room (versus 103.6 cubic feet for the standard Q70), the Q70L stretches the expectations for comfort in class – including the ability of most rear seat passengers to cross their legs.

As with the standard wheelbase Q70, the instrument panel features Fine Vision gauges, gear-like rings on the instrument cluster meters, a 7-inch color vehicle information display and an INFINITI analog clock. Heated driver and front passenger's seats, in leatherette and with power 10-way adjustability, are standard. These include 2-way power lumbar support – along with a dual occupant memory system for the driver's seat, steering wheel and outside mirrors, which can be linked to the individual INFINITI Intelligent Key fobs.

In addition, each Intelligent Key remembers the last-used climate control, audio and navigation settings. An entry/exit assist system for the driver's seat and steering wheel, sequential welcome lighting illuminated entry system and dual-zone automatic temperature also add to the Q70L's exceptional level of standard premium appointments.

Standard technology equipment includes Active Noise Control, Bluetooth® Hands-free Phone System, HomeLink™ Universal Transceiver and RearView Monitor.

Other interior highlights include power windows with one-touch up/down and auto-reverse feature, power door locks with automatic locking feature, retained accessory power for windows and moonroof, and 6-speaker audio system with AM/FM/CD, Radio Data System, USB Connection Port for iPod® interface and other compatible devices, steering wheel audio controls and speed-sensitive volume control, rear reading lamps, and a 12V rear power outlet.

INFINITI Q70L 5.6 models add an even higher level of standard equipment, including leather-appointed seats, INFINITI Hard Drive Navigation System with 8.0-inch WVGA color touch-screen display, NavTraffic® with Real-Time Traffic Information, NavWeather™ with Real-Time Weather and 3-day forecast (SiriusXM® subscription required, sold separately), Streaming Audio via Bluetooth®, Bose® 2-channel 10-speaker premium audio system, heated steering wheel, climate-controlled front seats, Front and Rear Sonar Systems and Around View® Monitor with Moving Object Detection.

A total of four interior colors are offered – Graphite, Stone, Wheat and Java.

Intelligent Performance, choice of drivetrains

Staying true to INFINITI's roots of sporty precision, the 2017 Q70L is offered with a choice of powerful and efficient 3.7-liter V6 and 5.6-liter V8 engines. Both are equipped with Variable Valve Event & Lift (VVEL®), which combines hydraulic-controlled variable valve timing and electronically controlled variable valve lift on the intake side to help improve performance and response.

Throttle response is enhanced by directly controlling the intake valve, rather than using the traditional method of controlling intake with the throttle valve. The VVEL system also offers improved emissions and fuel efficiency (over non-VVEL designs) by substantially reducing the intake resistance that occurs when the engine's throttle valve opening is narrowed and output is low.

The refined 3.7-liter aluminum-alloy DOHC 24-valve V6 is rated at 330 horsepower @ 7,000 rpm and 270 lb-ft of torque @ 5,200 rpm. It features rigid ladder-frame construction, large crank journal and pin diameters, asymmetric piston skirts, twin knock sensors, molybdenum-coated lightweight pistons, Iridium spark plugs and a symmetric twin air intake system.

The Q70L's 5.6-liter Direct Injection Gasoline aluminum-alloy DOHC 32-valve V8 is rated at 416 horsepower and 414 lb-ft of torque. The Direct Injection Gasoline system provides better wide-open throttle performance and improved fuel economy and emissions performance (compared to a non-direct injection system), Via more precise injection control, engine knock is reduced and combustion stability is improved.

Both engines are matched to INFINITI's advanced 7-speed automatic transmission with Adaptive Shift Control and manual shift mode with Downshift Rev Matching, which allows for sportier shifts during spirited driving.

The Q70L is offered with a choice of rear-wheel drive or INFINITI Intelligent All-Wheel Drive system, which uses an advanced torque split control strategy that automatically redistributes torque to the wheels (0:100 up to 50:50 front to rear) according to road and driving conditions, ensuring sure-footed road holding at all times.

Estimated fuel economy is rated at 18 mpg city/25 mpg highway for the Q70L 3.7 and 18 mpg city/24 mpg highway for the Q70L 3.7 AWD. The Q70L 5.6 is rated at 16 mpg city/24 mpg highway, while the Q70L 5.6 AWD achieves fuel economy of 16 mpg city/23 mpg highway.

In line with the focus on the driver, the Q70L features technologies that enable individuals to customize the driving feel. The unique INFINITI Drive Mode Selector allows drivers to select from four driving modes – Standard, Eco, Sport or Snow – and the integrated control system will adjust throttle sensitivity and transmission mapping to help optimize performance. The system also adjusts Active Trace Control and Eco Pedal settings (available with Technology Package). To encourage eco-driving behavior, the available Eco Pedal provides feedback

directly through the accelerator by giving a slight pushback if driving inefficiently.

The Q70L utilizes the advanced INFINITI front mid-ship platform, which positions the engine behind the front axle, resulting in an optimized front-to-rear weight balance. Laser welding is carried out at critical locations to help enhance lateral bending stiffness, torsional stiffness and suspension mounting point stiffness. Precise handling is provided by an independent double-wishbone design at the front and multi-link independent suspension in the rear, along with front and rear stabilizer bars. The rear suspension geometry has been designed to provide a quiet, comfortable ride.

The INFINITI Q70L's large wheels and tires are positioned out near the corners of the vehicle, helping to enhance performance. Standard 18-inch aluminum-alloy wheels – uniquely designed for the Q70L – and 245/50R18 all-season performance tires are offered on all models. In addition, the Performance Tire & Wheel Package offers split 5-spoke 20-inch aluminum-alloy wheels mounted with 245/40R20 all-season performance tires. The new Premium Select Edition offers unique design and color 20 x 9.0-inch aluminum-alloy wheels.

Each Q70L utilizes standard 4-wheel power-assisted vented disc brakes with Anti-lock Braking System, Electronic Brake force Distribution and Brake Assist. Sport Brakes with larger rear rotors with 4-piston front/2-piston rear opposed calipers are included with the Performance Tire & Wheel Package.

The Q70L utilizes an electronically controlled speed-sensitive variable-assist power rack-and-pinion system. Helping the driver to maintain control of the vehicle at all times is INFINITI's advanced Vehicle Dynamic Control with Traction Control System. The Active Trace Control system, available with the Technology Package, also adjusts engine torque and braking at each wheel to help enhance cornering performance.

Innovative technologies

The long list of safety and security systems, which are available with the Technology Package, include the Predictive Forward Collision Warning system,

which warns the drivers of risks that lie beyond the driver's field of view, uses a sensor on the front of the vehicle to analyze not only the relative velocity and distance of a vehicle directly ahead, but also of a vehicle traveling in front of the preceding one.

Another advanced Q70L technology is the Around View® Monitor system, which takes the hassle out of parallel parking. The system includes Moving Object Detection, which alerts the driver to moving objects around the vehicle when pulling out of a parking space or backing up. The Backup Collision Intervention™ system is a pioneering technology that intelligently detects crossing traffic, as well as large, stationary objects behind the vehicle when in reverse. Forward Emergency Braking detects potential forward obstacles and assists drivers in avoiding or mitigating collisions within a 5-to-50 mph range. A camera installed in the front of the vehicle monitors the presence of vehicles or pedestrians ahead and the distance to them.

Other safety and driver assist systems include the Lane Departure Warning and Lane Departure Prevention systems, Blind Spot Warning, Intelligent Cruise Control and Distance Control Assist.

In addition, all INFINITI Q70L models come equipped with standard INFINITI Advanced Air Bag System with dual-stage supplemental front air bags with seat belt sensors and occupant classification sensor; standard front seat-mounted side impact supplemental air bags; and standard roof-mounted curtain side impact supplemental air bags for front and rear-seat outboard occupant head protection. Also standard are 3-point front and rear seat belts, front seat belts with pretensioners and load limiters, front seat Active Head Restraints with 4-way manual adjustments, along with LATCH System (Lower Anchors and Tether for CHildren).

Four models, six available packages

The 2017 INFINITI Q70L lineup includes four well-equipped models: Q70L 3.7 (V6 rear-wheel drive), Q70L 3.7 AWD (V6 all-wheel drive), Q70L 5.6 (V8 rear-wheel drive) and Q70L 5.6 AWD (V8 all-wheel drive)

Six equipment packages are also offered. The Premium Package (standard on the Q70L 5.6) includes INFINITI Hard Drive Navigation System, Voice Recognition for audio, navigation and vehicle information systems, 8-inch WVGA color touch-screen display, NavTraffic with Real-Time Traffic Information, NavWeather with Real-Time Weather (SiriusXM® subscription required, sold separately) and 3-day forecast; INFINITI Connection telematics system with available safety, security and convenience service; Bose® 2-channel 10-speaker Premium Audio system; Streaming audio via Bluetooth®; climate-controlled front seats; heated steering wheel; rear sonar system; and Around View® Monitor with Moving Object Detection.

The Deluxe Touring Package (Q70L 3.7 models only) features the Bose® Studio Surround® sound system with digital 5.1-channel decoding, 16 speakers; power rear sunshade; semi-aniline leather seating; unique quilted seat pattern with additional seat bolstering; White Ash silver-powdered wood trim; suede-like headliner; premium soft-touch material for armrests, door inserts, center console and knee pads; and premium stitched meter hood.

A long list of advanced safety and security features is offered with the Technology Package, including Intelligent Cruise Control (Full-Speed Range); Lane Departure Warning and Lane Departure Prevention; Distance Control Assist; Intelligent Brake Assist with Forward Collision Warning; Blind Spot Warning and Blind Spot Intervention® systems; Front Pre-Crash Seat Belts; Active Trace Control; Eco Pedal; Adaptive Front lighting System with auto-leveling headlights; Forward Emergency Braking; Back-up Collision Intervention; and Predictive Forward Collision Warning. The V8 Deluxe Technology Package includes Deluxe Touring Package content and Technology Package content.

The Performance Tire & Wheel Package includes 20x9-inch split 5-spoke aluminum-alloy wheels; 245/40R20 all-season performance tires; and Sport Brakes with aluminum 4-piston opposed front calipers/2-piston opposed rear calipers.

And finally, the new Premium Select Edition includes dark chrome exterior trim, darkened lower rear bumper, rear decklid spoiler, unique design and color 20x9-

inch aluminum-alloy wheels with 245/40R20 all-season performance tires, Sport Brakes with aluminum 4-piston opposed front calipers, suede-like headliner, aluminum interior trim, unique color semi-aniline leather seating, floor mats with contrast piping and illuminated kick plates.
